* Pattern Key & How-to's

~ **Cable CO:** see instructions on Twisted Stitches... <http://Gettin'ItPegged.com>

~ **WY:** working yarn connected to skein.

~ **KO:** lift the bottom loop over the top loop, and over the top of the peg, to the inside of the loom.

~ **K:** fine gauge knitting method...lay the WY across the outside of the loom, over the top of the existing loop. KO.

~ **P:** lay the WY across the outside of the loom, under the existing loop. Reach down through loop with tool, snag WY and pull through making a new loop. KO old loop to the inside of the loom and replace new loop onto peg. Remove slack.

~ **PK:** panel knit...method of knitting a flat piece of knitted material. See diagram.

■ = original row

■ = turn & wrap next row

~ **BO:** bind off method.

* Row 34: On each of the 8 remaining pairs of loops, move the loop on the left to the right. E-wrap Knit 2 over 1 on 8 remaining pegs with loops.

* Trim WY to 20" and thread onto yarn needle. Gather Bind Off remaining 8 pegs. Cinch.

* Turn mitten inside out. Sew through loose rows of shaping to close any holes, and shape into rounded closure. Weave in end and trim.
